

## Review of operations – Papua New Guinea

Hidden Valley, PNG

## Papua New Guinea

Harmony's activities, including those undertaken in association with its joint venture partner, Newcrest Mining Limited (Newcrest) in Papua New Guinea (PNG) are managed out of Brisbane, Australia. These activities in Morobe Province, PNG, include:

- Hidden Valley, an open-cast gold and silver mine which has just begun commercial production, and
- the Wafi Golpu project, for which feasibility and concept studies have begun and which are reported on in detail in the *Exploration overview* in this report on page 96.

Outside of the joint venture with Newcrest, Harmony has acquired 8 000km<sup>2</sup> of exploration tenements which have promising upside potential.
